

SUPPLIER CYBERSECURITY ASSESSMENT - DEMO

Risk-based qualification for a technology supplier with system access

FICTIONAL DEMO RECORD - NOT VALID FOR OFFICIAL USE

Supplier	Harbor Technology Solutions Inc.
Assessment ID	SEC-DEMO-2026-1005
Risk tier	High - privileged system access
Assessment date	January 19, 2026
Next review	January 19, 2027
Reviewer	Northstar Information Security (fictional)
Outcome	Approved with annual review

Controls reviewed

Multi-factor authentication, least-privilege access, encryption, endpoint protection, incident notification, vulnerability management, backups, security training, subcontractor controls, and secure data return or deletion.

Evidence received

Fictional security policy, incident response summary, access-control standard, penetration-test executive summary, and cyber insurance certificate.

Residual risk

Annual reassessment is required because the supplier supports production systems. Material security incidents or scope changes trigger an earlier review.
