

SAM EXCLUSION SCREENING - DEMO

Internal procurement verification - applicable to federal or policy-required screening

FICTIONAL DEMO RECORD - NOT VALID FOR OFFICIAL USE

Supplier	Harbor Technology Solutions Inc.
Search date	January 18, 2026
Search terms	Legal name and fictional entity identifier
Exclusion result	No active exclusion identified (fictional result)
SAM registration	Not required for this private-sector demo contract
Reviewed by	Jordan Avery, Contract Administrator
Next review	At renewal or before a federally funded award

Review distinction

SAM.gov provides both entity registration and exclusion records. A supplier may require exclusion screening even when full federal entity registration is not required by the transaction.

Evidence handling

A production record would capture the official search date, search criteria, result, reviewer, and any entity identifier used, while following company privacy and record-retention rules.
